

MULTI-STAGE TELESCOPIC CYLINDER

For long cylinder strokes in confined spaces

ENERPAC 

MULTI-STAGE TELESCOPIC CYLINDER

- Long cylinder strokes in confined space
- Nitro-Carbonized treatment for extreme conditions
- 3% side-load of full capacity
- Standard tilting saddle on all models

RT-Series, Long stroke, Multi-Stage Cylinder

Enerpac compact, multi-stage telescopic cylinders are available with two or three pistons, and can lift loads up to 600 mm in a single movement.

Part Number	Capacity (ton)	Stroke (mm)	Stages	Coll. Height (mm)
RT-1510	14	270	2	269
RT-1817	16	435	3	310
RT-2111	20	300	2	299
RT-2119	20	500	3	351
RT-3311	31	300	2	324
RT-3323	31	600	3	405
