# MULTI-STAGE TELESCOPIC CYLINDER

For long cylinder strokes in confined spaces

## MULTI-STAGE TELESCOPIC CYLINDER

- Long cylinder strokes in confined space
- Nitro-Carbonized treatment for extreme conditions
- 3% side-load of full capacity
- Standard tilting saddle on all models

#### MULTI-STAGE TELESCOPIC CYLINDER LOAD-RETURN

### **RT-Series**

#### RT-Series, Long stoke, Multi-Stage Cylinder

Enerpac compact, multi-stage telescopic cylinders are available with two or three pistons, and can lift loads up to 600 mm in a single movement.

Part Number	Capacity	Stroke	Stages	Coll. Height
	(ton)	(mm)		(mm)
RT-1510	14	270	2	269
RT-1817	16	435	3	310
RT-2111	20	300	2	299
RT-2119	20	500	3	351
RT-3311	31	300	2	324
RT-3323	31	600	3	405

14-31 TON

270-600 MM Stroke range

700 BAR Max. operating pressure
